Portfolio: [iq4u8.vercel.app](https://iq4u8.vercel.app)

## PROFESSIONAL SUMMARY

Versatile professional combining a strong B.Com foundation with self-taught technical capabilities. Highly skilled in leveraging advanced AI agents and Prompt Engineering to rapidly prototype, develop, and troubleshoot software applications without traditional coding. Proven ability to independently resolve complex hardware/software IT issues. Adept at bridging the gap between business requirements (accounting, GST, operations) and technology solutions. Seeking a role where rapid adaptability, AI proficiency, and business acumen can drive operational efficiency and product development.

## CORE SKILLS

- AI & Prompt Engineering:** Advanced Prompting, AI Agent Workflows, No-Code App Dev, Code Troubleshooting.
- Business & Operations:** Tally ERP 9, MS Excel / Power BI, GST & Taxation, Bank Reconciliation, Data Entry & MIS.
- IT & Technical Support:** Hardware Troubleshooting, OS Diagnostics, HTML/CSS Basics, Cybersecurity Basics.
- Soft Skills:** Self-Directed Learner, Problem Solving, Adaptability, Communication.

## PROFESSIONAL EXPERIENCE & PROJECTS

- SOS Phonebook (Play Store)** June 2026 - Aug 2026  
Offline-first Android emergency directory built with React 19, Vite, and Capacitor 8. Features native geolocation, haptics, and zero data collection.  
*Keywords: React JS, Capacitor, Android App, Offline-First*
- CLM Sensor (Windows Utility)** May 2026 - July 2026  
Real-time privacy monitoring utility for Windows. Uses Python and Win32 APIs to detect active camera, microphone, and location usage via live registry polling.  
*Keywords: Python 3, Tkinter, Security, Multithreading*
- AI Step-by-Step Calculator (Play Store)** Feb 2026 - Mar 2026  
Intelligent offline Android calculator featuring a custom BODMAS parsing engine that generates detailed, human-readable math steps simulating a handwritten notebook.  
*Keywords: Android App, Algorithms, Offline-First, UI/UX*
- Smart Bank Reconciliation App** Apr 2026 - June 2026  
Client-side web utility that ingests Cash Book and Bank Statement CSVs to automatically detect, compare, and highlight mismatched financial entries.  
*Keywords: Accounting Automation, CSV Parsing, JavaScript Logic*
- Tally Data Visualizer Dashboard** Mar 2026 - May 2026  
Interactive dashboard utilizing Chart.js to transform raw Tally ERP 9 export data into visual metrics for sales, expenses, and profitability.  
*Keywords: Data Analytics, Chart.js, Business Intelligence*
- Automated GST & Invoice Validator** Feb 2026 - Apr 2026  
Smart validation tool that cross-verifies invoice calculations, SGST/CGST rules, and compliance parameters instantly using algorithmic checks.  
*Keywords: GST Compliance, Tax Automation, FinTech*

## CERTIFICATIONS

- Google Data Analytics Professional** — Coursera
- Google Cybersecurity Professional** — Coursera
- Meta Database Engineer** — Coursera
- Tally ERP 9 & Advanced Excel** — STP Ed.
- Diploma in Web Dev** — STP Ed.

## EDUCATION

- Bachelor of Commerce** 2024 | GPA 4.0/4.0  
A.C.S. College, Navapur (Grade: A)
- Intermediate (12th)** 2020  
Don Bosco Sec. School
- High School (10th)** 2018  
Don Bosco Sec. School
